About Me

I am a Senior Full Stack Developer

I am a full-stack engineer who leans more on the front-end. I'm experienced with simplifying processes, inventing solutions and following best practices. I specialize in Javascript, React.js / React Native, Vue.js, Angular, Node.js, Express.js, MongoDB, MySQL, PostgreSQL, Redux, Flux, Rest API. My most recent experience comes from freelance/contract jobs on Toptal/Upwork as a senior engineer who steps in to help companies that need urgent development resources.

- Experienced in working with Redux architecture using complex Object-Oriented concepts in improving the performance of the websites.
- Experience in using React JS components, Forms, Events, Keys, Router, plus Redux, Animations and Flux concepts.
- Good Experience in React.js for creating interactive UI's using One-way data flow, Virtual DOM, JSX, React Native concepts.
- Familiar with creating Custom Reusable React Components Library.
- Expertise in using Angular JS Directives, Controllers, Filters, Services, Templates, Events and Injectors.
- Experienced in working with NodeJS and NPM modules like http-server, Ruby on Rails, Marathon, inquirer, path, mongo DB, Micro Services, Request, Elastic Search, express, luck, spark and templating engines.
- Experience in Node environment using Node.js, NPM, Grunt, Gulp, Groovy Bower.
- Strong in using the Node.js, and Require.js and MVC Frameworks in the development of the web application
- Involved in writing application level code to interact with APIs, RESTful Web Services using AJAX, JSON.
- Knowledge of utilizing cloud technologies including Amazon Web Services (AWS), Microsoft Azure Blob and Pivotal Cloud Foundry (PCF).
- Experience in using Task managers like Asana, Trello, Grunt, Gulp.

Authorized to work in the US for any employer

Services

Laravel, MEAN/MERN

Both front and back end skills using the latest greatest frame works.

Mobile

Expert Native(Android, iOS) and Hybrid(React Native) Mobile development skills

Responsive Design

I have an expert understanding on the grid system and how to implment classes to work well with it.

E-Commerce

Need to sell your products online? I can help!

EnrollPro, US - <https://enroll.pro>

- Tied directly into preexisting patterns in a laravel / Angular code base.
- Published designs with Adobe XD for manager

Angular (5 years)

React/Redux (5 years)

TypeScript (5 years)

Ember (5 years)

Express (5 years)

Node (5 years)

GraphQL (5 years)

Vue (5 years)

Three (2 years)

Wordpress (10+ years)

Shopify (5+ years)

SEO (5+ years)

PHP (10+ years)

CodeIgniter (7+ years)

MySQL (10+ years)

PostgreSQL (5 years)

MongoDB (5 years)

JavaScript (10+ years)

and stakeholder feedbacks.

- Programmed Stripe Subscription, Marketing email/text templates, Sending email/text, Chat, Admin page.
- Refactored existing code to adapt to newer features.

May 2021 - November 2021

Full-Stack Engineer (Startup)

Gigworks, Inc - Fort Lauderdale, FL

- Conceptualized, designed, and programmed a marketplace for buying, selling and renting prop items for the film industry
- Designed 32 screens utilizing material UI. Conducted thorough research with users, competitors, and current market tools.
- Worked with Tensorflow Tiramisu Model to train out dataset related to background removal processing. Coded to identify and save distinction between the foreground and the background, so that the model can learn how to separate them.
- Worked with Python, Tensorflow, Angular 12.0, Mongo Db, GraphQL, and more tools to get the project completed.

April 2019 - December 2020

Front-End Developer (Freelance, complete)

PopUpCare, Inc - <https://www.popupcare.com> - New York, NY

- Front end engineer on an Angular 7 MEAN stack app.
- Styled per adobe XD design files provided by the design team. Stepped in and did some design work to help get design caught up with engineering.
- Integrated custom classes with bootstrap's grid system using less.js while following progressive web app standards.
- Worked to implement industry standard accessibility techniques

February 2019 - January 2020

Full Stack Developer (Freelance, complete)

jQuery (10+ years)

HTML5 (10+ years)

CSS3 (10+ years)

LESS/SCSS (5 years)

Bootstrap (10+ years)

Python (5 years)

Golang (5 years)

C++ (7+ years)

GitHub (5 years)

React Native (5 years)

Android (5+ years)

iOS (5+ years)

AWS (5 years)

ASP.NET (5 years)

Docker (3 years)

Fashion Space, LLC - <https://thefashionspace.com> - Greenville, SC

- I was hired to finish building a social network for fashion designers, models, photographers and all other categories surrounding the fashion industry.
- Found ways to keep the cost down like wrapping the web app using go native and finishing all steps to get app onto app store.
- Implemented push notifications for both Android and Apple devices
- Completed the codebase using Laravel, AWS, STRIPE, Paypal, Firebase, Restful APIs and more.

September 2018 - February 2019

Front-End Developer (Freelance, complete)

Walmart, Inc - Bentonville, AR

- Programmed front end functionality and designs using Sass styling.
- Met with the designer weekly to go over design details and what was expected for front-end functionality.
- Worked with Redux architecture using complex Object-Oriented concepts while improving the performance of the app.
- Forked boiler plate code base geared toward using typescript inside a react app.
- Met with the backend team to plan out specific end points necessary for component features.
- Worked in an agile environment with stand up meetings every few days.
- Developed and implemented highly responsive user interface components using react concepts.
- Documenting application changes and developing updates.

August 2018 - October 2018

Full stack Developer (Freelance, complete)

WASHABELLE - <https://washabelle.com>

Updated codebases to the latest versions, wrote test code and refactored front end pages. Improved routing and back-end logic. • Node • Express • Handlebars • Sendgrid
